

SSC-324 | DOOR ACCESS CONTROL PANEL

The SSC-324 is an expandable intelligent access management component capable of supporting all access control functions for multiple doors. It supports up to 65,536 cards, making it one of our more Intelligent devices.

H.S. CODE: 8537.10.99

» INQUIRY

The SSC-324 are an expandable intelligent the DOOR ACCESS CONTROL PANEL capable of supporting all access control functions for multiple doors. It supports up to 65,536 cards, making it one of our more Intelligent the DOOR ACCESS CONTROL PANELs.

The SSC-324 is programmed via IntelliScan Platinum access software program, a Windows based access control, security management software. Once programmed, the DOOR ACCESS CONTROL PANEL does not require continuous server communications, as it automatically stores systems transactions in its internal memory. The SSC-324's memory field is expandable allowing for grater cardholder populations and/or a larger transaction buffer.

» SPECIFICATIONS

User Registration	65,536 Cards	
Transactions Buffer	270,000 Events	
Communications	TCP/IP, RS 485, Wiegand	
Indicator	Multi Colored LED with Buzzer	
Networking Software	Access Control Software	
Power Requirement	12 V, DC	
Physical	ABS (Polycarbonate)	
Envirnment	Temperature	- 0 C +50 C
Performance	Humidity	10% 90%
Inputs & Outputs	16 Inputs / 4 Outputs	
Optional	External Reader	ISR-100 / ISR-200 / ISR-300 / BSR-100
Warranty	2 year parts and labor
