

Smart Controller

RC 1

## Remote Controller

Experience unparalleled speed, precision, and effortless integration with our cutting-edge UHF readers. Tailored to streamline workflows, enhance security, and provide instant access to real-time data, our devices are designed to excel in a variety of environments. Whether you're in retail, logistics, or healthcare, our UHF readers empower your operations to deliver consistent, high-performance results.

**Innovate. Simplify. Excel.**

## SPECIFICATION

|                        |                                   |
|------------------------|-----------------------------------|
| <b>Read Distance</b>   | : 0~ 50 Meters (Spacious)         |
| <b>Working Power</b>   | : ≤12MW                           |
| <b>Working Current</b> | : 8~10mA                          |
| <b>Static Current</b>  | : 0                               |
| <b>Encode</b>          | : Rolling Code (HCS301)           |
| <b>Frequency</b>       | : 433.92MHz                       |
| <b>Reading Speed</b>   | : -30°C to 65°C - IP67            |
| <b>Material</b>        | : ABS Plastic Case                |
| <b>Power</b>           | : 6V                              |
| <b>Certificates</b>    | : CE                              |
| <b>Dimension</b>       | : 60 x 33 x 10 mm                 |
| <b>Buzzer</b>          | : No                              |
| <b>Led</b>             | : Yes                             |
| <b>Color</b>           | : White, Red, Green, Blue, Yellow |
| <b>Button</b>          | : 2, (Optional 4)                 |
| <b>Origin Country</b>  | : China                           |
