

A1

UHF RFID Antenna

Experience unparalleled speed, precision, and effortless integration with our cutting-edge UHF readers. Tailored to streamline workflows, enhance security, and provide instant access to real-time data, our devices are designed to excel in a variety of environments. Whether you're in retail, logistics, or healthcare, our UHF readers empower your operations to deliver consistent, high-performance results.

Innovate. Simplify. Excel.

SPECIFICATION

Read Distance	: 0~ 20 meters
RF Power	: 0.30 dBm Adjustable by Software
Working Mode	: FHSS or Fixed Frequency
Frequency	: Standard ISM 902,928 MHz or ISM 865,868 MHz or Other Frequencies Possible
Reading Speed	: Reading Frequency Every 64 Bits <6 ms
Operation Temp.	: -30°C to 65°C - IP67
Material	: ABS Plastic Case
Data Ports	: Wiegand 26/34, RS485, RS232
TCP/IP	: None
RS-485	: Yes
RS-232	: Yes
USB	: None
PoE	: None
Wiegand	: Yes, (1 Relay)
Power	: DC 12V
Certificates	: CE, FCC, RoHS
Dimension	: 450 x 450 x 70 mm
Buzzer	: Yes
Origin Country	: China
